Coffee County Goes Door-To-Door With Garbage Pick-Up April 1st

The Coffee County Commission met in regular session on Monday, March 27, at the Courthouse in Elba, and heard County Engineer Leslie Mullins announce that door-to-door garbage pickup in the county would begin on April 1.

Mullins presented the news media with an explanation of requirements of State and Federal law, which stated: (A) A property owner can dispose of household garbage on his own property by putting it in a hole and covering it with 6 inches of soil and compacting. This is to be done each time

(B) Use your own transportation to haul garbage to Coffee County Landfill at New Brockton. The garbage will be covered and compacted and

a fee will be charged. (C) Use the garbage pickup service of Coffee County. (D) The Health Department will be responsible for enforcing the law in cooperation with law

Only containers specially marked will be picked up, and the bags are to be placed near the mailbox or at right-of-way line in front of the home. Gar-

Mullins informed the commission that all garbage dumps currently in use will be picked up by the county and will be stored at the landfill. It will be against the law to dump garbage at the locations.

Upon recommendation by Mullins, the commission voted to authorize the county to petition for an adjoining a state or county road to furnish and install a driveway place to residences, Engineer's office to review and continue working at getting the policy of "free pipe" stopped, and the county to sue for a victory for the cleaner engineer.

Mr. Pelham addressed the commission during its morning session and told them that if they cut back the number of CETA employees presently used, it will affect the continuing use for next year. The county has cut its CETA force from 48 to 35, and Mr. Pelham said that next year the county will have its funding cut to parallel the change.

Turtles Clog Lagoon Drain Pipes

City of Elba workmen are shown with about eighty of the several hundred turtles they dipped out of a drain at the sewer lagoon several weeks ago. The workmen attempted to keep the drain cloggers in one pile until the photographer arrived, but it proved to be a mountain of a job, and they allowed many to crawl through the fence and swim away to parts unknown.

Looking down into the drain after all were removed, they could see others coming through with the fast flow of water, headed to Pea River. No explanation was available as to the cause of the sudden movement of so many turtles at one time.

Representative Jimmy Holley noted a couple of weeks ago that the way things were going, Alabama would again have a special session of the Legislature immediately after the regular session ends in April. Well, it seems that other folks are thinking the same thing. Tuesday, the Alabama House had a committee working on plans for the special session. It might be that they all heard Governor Wallace promise to call the session if certain bills didn't pass and become law.

WHO IS IN CONTROL ?

The question could be asked, "Can man control his destiny?" Is it true that "what will be, will be," regardless of anything we may think or do? Too many of those within spiritual ranks cover their lack of faith and knowledge of the scripture by simply saying, "Let the will of God be done."

Certainly we should want God's will for our lives, but we should not confuse God's will with misunderstanding the truth of His promises in relationship to our need.

When we have mechanical breakdowns on our cars, we don't want a mechanic to look at it and say, "What will be, will be." We would expect the repair to be made. Even more, if it is important to see God's reality in our lives.

Yes, God does answer prayer, and yes, you can have control of your need. We are not like a small boat on life's boisterous seas. Neither are we

I MUST GO ON

By: Annie Maude Kowalewski

There's two roads for us to follow. And the narrow one's for me - 'Cause I'm going home with Jesus. Yes, His face I soon shall see.

When the trumpet does start blowing, We'll be leaving, oh, from here - If you're living oh, for Jesus, There is nothing, oh, to fear.

Since I met my Jesus, And He took the shame from me, I want to tell the world He loves me, I want the world to see.

My health was very bad, My sight was almost gone - But my Lord reached down and took me, And now I must go on.

I feel so different, oh, today, Since I've turned the Holy way, I want to witness for my Savior Every day.

I can't turn back from the truth I've found, For with my Lord, I'm glory bound, With all of His love that has been shown - Now I must go on.

I must go on, I must go on - Yes, my health was very bad And my sight was almost gone, Yes, my Lord reached down and took me, And now, I must go on -

Bible Verse

"Wherefore God also hath highly exalted him, and given him a name which is above every name. That at the name of Jesus every knee should bow, of things in heaven, and things in earth, and things under the earth; and that every tongue should confess that Jesus Christ is Lord, to the glory of God the Father."

How To Tell For Sure When You Get Past 40

Comedian Jack Benny always said he was 39 years old whenever the matter of age came up. It became such a standing joke that most of us now think of him when somebody tells us he is 39 years old.

Did you ever wonder what it would be like to be over 40? Of course, the question doesn't matter, but for those past that age, the question does matter. Here's how you can tell when you're past forty.

At the end of the day, You're tired and spent, 'Cause you get up and go Has got you and went!

Spring Practice Begins At Zion Chapel

Tuesday, March 1, 1978 marked the beginning of another spring training for forty EAGER Rebels. It also marked the beginning of a rainy week which hindered the Rebels' first session of practice. Now, after several weeks of hard hitting, Rebel coach David Collins says the remaining 34 Rebels are looking good and showing a lot of spirit, despite a lot of dirty towels.

At first, says Coach Collins, "we had a lot of minor injuries, such as sprained ankles and bruised and pulled muscles and joints. This has kept us at a minimum speed and several are not at full speed yet. Twelve returning veterans are showing a lot of enthusiasm and leadership. We will be running basically the same on offense and defense as last year but we are really going to have to work on our blocking, but our running is fairly good. The Rebels are looking forward to their April 7 showing here at Zion against New Brockton. We are going to have to work extra hard to get ready for New Brockton. We understand they have a new weight machine and have really been working out."

First game action will be Kinston vs. Sanson, followed by Zion and New Brockton. The losers of the first two games will play a fifth, and the winners will play a fourth and final game.

ELEMENTARY HAPPENINGS

The second grade recently went, along with the two first grades, to Enterprise to see the movie, "Jack and the Beanstalk." The students said that they really enjoyed

the trip and would like to go again. The party they liked best was the part in which the giant came in in his underdrawers with his ears on them. After the movie they went to one of the local restaurants for lunch. On the trip back to school they stopped again, this time for ice cream cones. They all said that this was an exciting day!

4-Hers Go To Florida

Four students from Zion Chapel spent part of the Spring Holidays in Panama City, Florida. They were Randy Wilson, Suzanne Sanders, Lia Lowery and Melanie Sanders. They spent three days and two nights on a 4-H fraternity trip. It's an honor to be in the Gold Key 4-H Fraternity. You have to be a really active worker in 4-H, keep a good record book and be invited into the fraternity by the members. We are proud to have members in the fraternity from Zion Chapel.

NEWS from your PHARMACIST

Kris Scarborough

How many times have you heard someone say he is feeling "down and out" and needs iron in his blood? Why does he need iron?

Blood is iron. Iron creates a deficiency and leads to anemia. Anemia can be easily recognized since it leaves a person listless and with little vitality. Other conditions can cause the same symptoms so a person with low vitality should consult his family physician immediately.

Whatever your doctor prescribes, we stand ready to professionally compound. Let us serve your every pharmaceutical need. We intend to render the best in service to please you.

Army Reserve Active & Popular In South Alabama

March 11, 1978, dawned with the entire area covered with fog. This was the Saturday set aside months ago for an ELBA CLIPPER reporter to tour the Wiregrass area Army Reserve units as they conducted a normal monthly drill.

True to form, the "hurry up and wait" long associated with the military was still true as the fog postponed the flight from the Elba airport from 9 a.m. until 9:15; but actually it began at 9:50 after the last patches of fog had been burned away by the sun rays.

The helicopter assigned to the flight was a UH-1H commanded by Captain Lockyer and co-pilot CW-3 Strauss. Crew Chief for the flight was Donald Foley. Both the pilots were from Enterprise, and Foley lives at New Hope. His children attend school at Zion Chapel. The three are assigned to the 282nd Assault Helicopter Company at Knox Field, Ft. Rucker, along with about 500 other Reserve personnel.

The flight left the Elba airport, circled and headed for Ft. Rucker. Looking down, the passengers in the eggbeater could see the summer cabin

trees blown down by storms of the past several years were obvious as was the fishing boat floating loose in a farm pond.

The passenger bay their "picture book." This unique book has actual photographs of all approved landing sites in the Wiregrass area, including sites at or near all Reserve Centers.

The first arrival at the Dothan headquarters was limited to a few handshakes and "let's go out." A quickly borrowed car and a short trip to a well-known restaurant soon had the party contented and it was back to the Reserve center.

Austin began to appear shifty and soon he made his excuses and went about his business, probably to correct something only he had observed on some earlier part of the tour.

Floyd Morrow, who will be First Sergeant of the Elba Unit, came by and put in a few words bragging on the Army Reserve and the quality of people who serve.

The return flight to Elba was interrupted by a stop at Ft. Rucker for more fuel but otherwise was uneventful. It was early March and farmers were just beginning to break land in preparation for spring planting. The patterns in the fields where the tractor driver had turned his rig around left designs angling across the fields with each driver leaving his own special fingerprint on a field.

Arriving at Elba, Johnson, Moore and the aircraft crew waved goodbye as they departed to continue their weekend of training. Even though it was almost 3 p.m., they still had work to do that day and another day ahead of them.

Between Abbeville and Dothan the pilots agreed to a request and passed back into

the flight from the Elba airport from 9 a.m. until 9:15; but actually it began at 9:50 after the last patches of fog had been burned away by the sun rays.
